Docker

Git

Professional Summary

Forward-thinking Full Stack Developer specializing in highly interactive, performance-driven web applications. Proven ability to architect complex backend systems, implement seamless animations, and automate workflows via custom integrations like scalable Telegram bots. Passionate about bridging the gap between exceptional UI/UX design and robust engineering.

Experience

Senior Full Stack Developer

2024 - Present

FREELANCE / INDEPENDENT

Designed and built premium digital solutions for diverse clients globally. Architected scalable applications using Next.js and integrated AI automation tools to streamline business workflows.

Backend & Mobile Developer

2022 - 2024

TECH STARTUPS

Engineered high-concurrency Telegram bots serving 10k+ daily users. Developed cross-platform mobile apps with seamless API integrations and optimized database query performance by 40%.

Frontend Web Developer

2020 - 2022

DIGITAL AGENCIES

Crafted pixel-perfect user interfaces with advanced micro-animations using Framer Motion. Translated complex Figma designs into responsive, production-ready React components.

</> Featured Projects

High-Concurrency Telegram Bot

Enterprise-grade automation bot handling rate limits and heavy database operations efficiently.

Node.js

PostgreSQL
